Basel

SHORT TRIP «ST. ALBAN»

Our guides show you their city. Come with us on an interesting and unforgettable tour of St Alban-Tal with the innovative Segway!

Starting at the Messeplatz we drive to Wettsteinplatz, where the famous Wettstein Fountain stands. After crossing the Wettstein Bridge we arrive in St Albanvorstadt. Of all the Basler Vorstädten, St Albanvorstadt has best kept its character and allows us to gaze in wonder at the contrast between the humble, gothic, tradesmen's houses and the proud, baroque buildings. The route takes us to St Albantor, one of three original city gates still standing and through the Gellerstrasse with a fantastic view of the imposing villas.

St Alban-Tal is known as the Venice of Basel. St Albanquartier, in which St Alban-Tal lies, is the greenest part of the city of Basel. It is an exclusive and elegant residential area, where upper class and affluent old Basel families have lived for a considerable time.

We drive directly along the Rhine on the St Alban Rhine Way to the Letzimauer, where the Letziturm stands at the end of the former and partially reconstructed Basel Stadtmauer. The Basel Paper Mill, which was operational as long ago as the early 16th Century, stands close by. Today it is the Swiss Paper, Writing and Print Museum. We continue over the Mühlenberg and return across the Wettstein Bridge to the Messeplatz where the tour ends after 1.5 hours.
