

Interlaken

SPECIAL TOUR «MYSTERYTOUR»

Join us on an unforgettable and interesting tour through Interlaken and the surrounding area on the innovative Segway! The tour starts at the mobileo office in Unterseen and leads to the well-known Neuhaus, where the Lombach flows into Lake Thun. At Neuhaus we enjoy the view of the water and mountain world.

The tour continues with a visit to the ruins of Weissenau, the former moated castle, and the crossing of the Aare to Interlaken. Passing the Interlaken West railway station, we ride through the Wagneren Gorge, where we test the mastery of a longer incline - the Segway guides the rider up the mountain at undiminished speed. Other stops include the Rugenbräu brewery, the beautiful Unspunnen ruins and the centre of Wilderswil. Via the RUAG airfield we drive to Bönigen to Lake Brienz, which captivates with its unique blue-green colour. On the way back we visit Interlaken Castle, the Japanese Garden and the Höhematte in the centre of Interlaken.

Finally, the varied tour takes us once again across the emerald green Aare and into the picturesque old town of Unterseen, whose roots date back to the late 13th century. From there there are fabulous views of the mountain backdrop of the Eiger, Mönch and Jungfrau. We travel along the Lombach River and back to the starting point, the first part of your event comes to an end.

After your independent transfer, the second part of your event awaits you at the MysteryRoom in Interlaken. MysteryRooms is a fun team game that you play together with your group. Trapped in a room, you will be confronted with many challenges that you have to solve together within one hour. Enjoy the race of your wits against time and solve puzzles as well as secrets to find the exit and escape in time.

Price: 4 hours | 155 CHF
