

Zürich

CLASSIC TOUR «INTO THE NATURE»

Join us on a tour through the beautiful nature of Zurich Oerlikon and the surrounding area with the innovative Segway PT!

We meet just a short five-minute walk from the Waidbadstrasse bus stop. After our driver training we start at the most beautiful vantage point in Zurich towards Oerlikon. We discover Neu-Oerlikon with its beautiful parks and its exciting story about its transformation over the last 30 years. In Zurich-Seebach we dive into the beautiful nature around Zurich, past old parts of the village back to the city district of Zurich-Affoltern which has the highest percentage of green spaces in the entire city area, through a small farming village, over a bridge towards Katzensee.

The ride into the „Seeholz“ forest does not take long and we catch a glimpse of the upper Katzensee, also called the small Katzensee. After a relaxing drive through the rural surroundings, we reach the large Katzensee. The deep blue water and the surrounding landscape form a true natural paradise! Through the „Seeholz“ forest we head to the Mühlackerquartier, a new housing development in the north of Zurich. A gentle climb takes us up to the vibrant ETH with world-renowned education and research. After 2.5h we return from the ETH to our starting point via small but well-maintained forest paths, where you can once again enjoy the magnificent view of Zurich or indulge yourself in the restaurant „Die Waid“.

WHAT AWAITS YOU:

- Oerlikon Park
- Katzenbach
- Katzensee
- Beautiful nature
- ETH Zürich Oerlikon
