## PREMIUM-TOUR «GERSCHNIALP»

Our premium tour starts at the Sporting Park Engelberg, where you will also get to know the Segway better. We glide a short passage to the valley station Titlis to load our vehicles on the Gerschnialp mountain cableway. After a ten-minute drive on the Gerschni we come to the mountain station on a height of 1'250 meters. From here on, the streets provide a perfect underground for our Segways.

Past the Scheiterbüelhubel and the restaurant Gerschnialp, where we stop to get some drinks, we come to the Alp Trauboden on a height of 1'300 meters. Having a stunning view on the impressive mountains around Engelberg, we eventually glide back a little bit to proceed our tour on the other side of the Gerschni mountain cableway station.

We pass the Hungerbodenwald until we reach the Unter Trübsee. Especially for nature-lovers the close-to-nature tour offers the perfect possibility to get to know the area and the Segway itself.

Driving downhill, you can enjoy the fabulous view and recall the tour. When we arrive in the valley we glide the last passage back to our starting point, the Sporting Park, which provides you with the perfect location for any further activities in or around Engelberg. After a total of 3 hours and 300 meters of height our tour will end here.
