SHORT TRIP «MATTE»

Our guides show you their city. Come with us on an interesting and unforgettable tour through the Mattequartier with the innovative Segway!

Our route takes us from the Casino Parking to the Bundesplatz, which lies directly before the Bundeshaus and affords an unobstructed view of the impressive buildings. We continue on to the Marzilibahn, the second shortest cable railway in the world that travels up to the higher situated Bundeshaus. In the Kirchenfeldquartier we pass the Swiss National Library and the Historical Museum before we arrive in the beautiful Mattequartier.

The Mattequartier is clearly geographically separated from the rest of the inner city and as such, is considered a part of the old city. Whereas the inner city was founded on a hill, the Mattequartier lies directly on the banks of the Aare. As documented for the first time in 1327, this area had long been the only crossing point of the Aare in the vicinity of the Untertor Bridge. The Matte area benefited greatly from its location on the river and over time developed a pier for ships and rafts as well as a center for public bathing houses. Even the famous Giacomo Casanova was once a guest here.

After our visit to the Mattequartier, we make a stop at the spacious new Bärenpark where Bern's living landmarks, the bears, are at home in their pleasant surroundings.

We continue the tour to the Münsterplatz with the Zytglogge and on to the Casino Parking where the tour ends after 1.5 hours.
