Murten

SPECIAL TOUR «MONT VULLY»

Our guides show you their lake-region. Come with us on an interesting and unforgettable tour in the region of the Mont Vully with the innovative Segway PT!

Our tour starts at the canal of the river Broye in Sugiez at the eastern end of the Lake of Murten. We then make a short detour to the lakefront where we enjoy watching the water sports enthusiasts, before we continue on the military route to the Mont Vully. The Segway PT easily carries us up the steep ascent to a beautiful vantage point. The Mont Vully, a hill with a height of about 650m, is known for its unique view, for its vineyards, wine and its mediterranean charm. This is one of the smallest wine-growing districts of Switzerland, where specialities such as the Riesling, Sylvaner and Rosé du Vully are pressed. At one point of our drive, you have the possibility to watch a winemaker at work and to learn important facts about winegrowing.

After this short stop, we drive along a ridge in the direction of Haut-Vully. During this part of our tour, we enjoy the view of the wonderful region of the three lakes with the canal of the Broye, the vineyards of Vully, the city Murten and the breathtaking view of the chain of the Alps.

Our return journey leads us through Lugnorre and Môtier and 2km along the lakeside back to Sugiez. On this route, we admire the characteristical wineries and farm houses built between the 17th and 19th century in the communities of Praz and Nant, before we arrive back at our starting point after 2.5 hours.
